CONTENTS

1. SAFETY PRECAUTIONS

WARNINGS

Do not watch and operate the TV/Video monitor while driving.
It may cause a car accident because of the distraction.
Do not install the TV/Video monitor on a place where obstruct the driver's
viewing or near and airbag device.
(with a bad viewing angle, it will cause an accident easily)
Do not attempt to service this unit by yourself when it breaks down.
(Do not attempt to repair this unit by yourself to avoid serious damage)
Keep away the liquid from the main body to avoid possible electric
shock or damage.
Do not disassemble, heat, fire, recharge or short-cut the batteries
of the remote control.
In case of smoking rare odor from the TV/Video monitor, power off
this monitor immediately and contact with the dealer for service.
Do not apply pressure to the screens surface.
When cleaning the TV/Video monitor, use only lightly dampened lint
free cloth to wipe the screen if it is dirty.
Do not use any cleaning fluids, abrasive cleaner or solvents to clean
the screen as they may scratch/damage the screen.
Lock the LCD screen in the fully closed position when not in use.

SAFETY PRECAUTION

Adjust the volume to a moderate level to hear the noise from
the outside while driving.
Do not watch TV or Video while the car's engine is off.
(It may drain the car battery)
Avoid from direct sunshine, heat or moisture when installing this unit.
Do not open the monitor body to avoid electric shock.
In case of changing fuse or battery, use proper one to avoid malfunction.
When installing on the board, use included screws to fix mounting
plate tightly.
Keep the monitor screen from the children to avoid possible LCD breakage.
Do not compel to flip down this monitor by force, it may cause breakage
of main body.
